Woodbury Veterinary Hospital, Dr. Lewanda Lance DVM

102 N. Dillon St., Woodbury TN 37190      615-563-8387

**Pre- Anesthetic Blood Testing /CBC Consent Form**

Like you, our greatest concern is the well-being of your pet. Before putting your pet under anesthesia, we will perform a full physical examination. However, many conditions, including disorders of the kidneys, liver or blood sugar, are not detected unless blood testing is performed. Such tests are especially important before any surgery.

These tests are required for patients over the age of 6 years. For these reasons, we highly recommend blood screening before each anesthetic/surgical procedure. The total cost of these important tests is **\$72.00** in addition to procedure. Our laboratory is fully equipped and staffed to perform these important blood tests. Results will be immediately available to examine before anesthesia and/or surgery. Please indicate your choice below.

**Pets Name:** \_\_\_\_\_ **Owner:** \_\_\_\_\_

Procedure to be performed: \_\_\_\_\_

\_\_\_ Yes, I want my pet to have a pre-anesthesia blood screen.

\_\_\_ No, I do not want my pet to have a pre-anesthesia blood screen.

\*Would you like \_\_\_\_\_ permanently identified and registered with a microchip for an additional fee of \$39.99

\_\_\_\_\_ Yes!! I would like permanent identification in the form of microchipping.

\_\_\_\_\_ No, I do NOT want my pet microchipped

\*Would you like \_\_\_\_\_ tested for heartworms and put on prevention for an additional fee of \$35.00 and prevention varies by weight.

\_\_\_\_\_ Yes, I want my pet to be tested and put on prevention of my choice.

\_\_\_\_\_ No, I don't want my pet to be tested and put on a prevention.

**PAIN MANAGEMENT RELIEF FORM**

No Pet should suffer from unnecessary pain. Our policy is to control the pain of pets in our care. Pain is more than an unpleasant sensation or emotion. Unrelieved pain can lead to harmful physical effects and may delay healing. While pets cannot tell us when and where they hurt, we know they feel pain just as a person would. Consequently, we assume any injury, disease, or procedure that may cause pain in people, will also cause pain in your pet and should thus be treated. We believe controlling our patient's pain is important. Medication may be administered before, during, and/or after your pet's medical procedure to reduce pain and discomfort and to also promote recovery. \_\_\_\_\_ is required to have a pain package (laser treatment, pain injection and pain medication to be sent home) after any surgical procedure.

\_\_\_\_\_ Yes, I understand \_\_\_\_\_ will be given this pain package after any surgical procedure.

**NAUSEA RELIEF**

\_\_\_\_\_ Yes, I consent to \_\_\_\_\_ having an antinausea injection pre or post any surgical procedure. (To be given at the doctor's discretion).

**LASER TREATMENT**

\_\_\_\_\_ Yes, I consent to \_\_\_\_\_ having a laser therapy treatment pre or post any surgical procedure. **(Helps reduce pain, reduce inflammation, and speed healing).**

**SPAY AND NEUTER TATTOO REQUIREMENTS**

\_\_\_\_\_ **I understand my pet will have a green tattoo placed on abdominal/scrotal area after surgery.**
